Getting Started

When the game begins, you will be asked to choose the gender of your character, then get to name him or her. For this guide, I'll assume that your custom character is female. You'll also get pick a name for your rival. I'll assume you named him Damion for the sake of this guide.

The Coal Badge

Some intro text for this badge to go here...

The Coal Badge - Twinleaf Town & Lake Verity

Twinleaf Town

Feel free to have a look around your room if you like, then head downstairs where mom says that Damion came by to check on you. Exit out to town and try to go into the northwest house for a dialogue. After that, go inside then proceed upstairs. Now go back outside and head north to Route 201 where Damion will be waiting for you awaits. In Route 201, go left then north towards Lake Verity.

Lake Verity

You'll get to meet Professor Rowan and Lucas for the first time here. When you regain control, pick a Poke Ball from the briefcase. (Left: Turtwig; Middle: Chimchar; Right: Piplup). Choose whichever Pokemon you want and use it to defeat the Starly that appears. Go on home afterwards.

Twinleaf Town

Mom will hand over a Running Shoes which allows you to dash by holding down the B button while moving in any direction.

Return to Route 201 and take the east path this time. Proceed north along the grassy area, and speak to the lady there. She will give you a POTION. Take the time to battle with some wild Pokemon to gain levels. Go on righttowards Sandgem Town afterwards.

Sandgem Town

Lucas will meet you as soon as you arrive, and take you to the lab where Professor Rowan gives you a Pokedex. Leave the lab to run into Lucas again. He will then introduce you to the different structures around town. Visit the Pokemon Center and speak to the receptionist at the front desk to heal your Pokemon. Check out the Poke Mart as well to purchase Poke Balls or Potions if you want.

After that, go back home and talk to mom. She'll then give you a Journal. You will also get a Parcel from your rival's mother. Now return to Sandgem Town. There, proceed southwest along the sandy area for an ANTIDOTE at the lower section. Turn back up to Route 202.

	Turtwig (Lv. 19)	\$2640
If you have high level fire Pokemon with fire-type attacks. Then these battles shouldn't be too hard. Otherwise, bring in your high level grass Pokemon to defend against your opponent's grass-type attacks. Or bring in a grass Pokemon that has the Bite ability. The said move deals a good deal of damage and sometimes makes the target flinch, causing them to skip a turn. Roserade's Magical Leaf causes Paralysis, so be sure bring plenty of Parlyz Heals. Use Potions when necessary. As for Turtwig, repeatedly use Bite on it. Gardenia will use a Super Potion once Turtwig is low on health, so you'll have to deplete its HP again.		

You'll receive the FOREST BADGE & the TM86 (Grass Knot) afterwards.

Wake	Floatzel (Lv. 30)	--
	Quagsire (Lv. 27)	\$3600

The Gyarados can be a pain because it knows Swagger, which greatly boosts your Pokemon's attack power and inflicts Confuse at the same time. I suggest using Bite repeatedly since it causes the target to flinch and lose a turn. Use healing items if necessary.

Bring in a grass-type Pokemon to deal with Floatzel

| and Quagsire. Abilities like Mega Drain and Razor |
Leaf can knock them out in one shot.

You'll receive the FEN BADGE and TM55 (Brine) from Wake.

The Relic Badge

Leave Pastoria Gym and speak to the Galactic goon near the Observatory entrance. He will leave so run after him and pester him again. Damion will run you over and challenge you afterwards. You'll get \$2800 for beating him.

Route 213

Pick the berries at the side if you like. You can capture a Wingull and a Floatzel here as well. It's important that you catch a flying Pokemon now, because they are the only ones that can learn the abilities "Fly" and "Defog". Keep heading right until you get to the beach. There, go down and smash the rocks to find the TM40. There are plenty of trainers to battle too.

Valor Lakefront

Enter the house to your left and talk to the clown to get the TM92. Proceed north, west then south for a PP UP. Turn back and go all the way north to find a PARLYZ HEAL. Go inside the nearby restaurant for some double battles if you want. Those trainers give lots of credits, so I recommend that you challenge them.

The area will be foggy from here on, so use Defog to clear it up.

Make your way north then west up the steps at the end. After defeating Ernest, head left and pedal across the narrow plank. Defeat David and pedal down the next plank. Smash the rocks, Grab TM30 SHADOW BALL. Make your way back to the split path and take the south path this time. Grab the SMOKE BALL after beating Nathan.

	Drifloon (Lv. 32)	--
Fantina	Mismagius (Lv. 36)	--
	Gengar (Lv. 34)	\$4320
This is one tough battle. Fantina uses Ghost-type Pokemon so Normal and Ground type attacks are won't work on them. Your best choice here is to use Dark-type moves such as Bite and Crunch, with the Black Glasses equipped.		
The Drifloon is also weak to lightning, so using moves like Thunderbolt will work. The Mismagius can use Shadow Ball, a rather deadly Dark move. Confuse Ray is a problem too.		
The Gengar knows Spite and Poison Jab. The former attack will reduce an ability's PP by 4 and the latter one causes Poison.		

You'll receive the RELIC BADGE and TM65 (Shadow Claw) from Fantina afterwards. Cynthia will meet you outside the Gym and tells you to visit the library in Canalave City.

Grab the ELIXIR here. Turn back and this time take the bottom-left portal. Open the door and battle Cyrus.

Boss	Pokemon	Rewards
Galactic Boss Cyrus	Murkrow (Lv. 40)	--
	Golbat (Lv. 40)	--
	Sneasel (Lv. 43)	\$7740
This battle shouldn't be tough if your Pokemon's levels are high enough. The Murkrow is weak against Fighting-type moves. You can easily get rid of the Golbat with Electric attacks and the Sneasel is weak against Fighting and Fire type attacks.		

Cyrus will give you a MASTER BALL. Step on the portal up ahead. In the next area, follow the path to the door. Battle Commander Saturn.

Boss	Pokemon	Rewards
Commander Saturn	Kadabra (Lv. 38)	--
	Toxicroak (Lv. 40)	--
	Bronzor (Lv. 38)	\$3200
He has the same set of Pokemon as he did back in the Lake Valor Cavern. Only difference being they are at higher level. Again, the Kadabra is weak against Dark moves, the Toxicroak is weak to Ground attacks. And finally, use Fire-type attacks on the Bronzor.		

Fly to Hearthome City and take the southwest exit to Route 208. From there, go west into Mt. Coronet. You might want to stop by a Poke Mart and stock up on Ultra Balls or Dusk Balls, since you'll be capturing a legendary Pokemon later.

The Beacon Badge - Mt. Coronet & Spear Pillar

Items or Key Items	
Route 208	Iron
Mt. Coronet	Max Potion, Escape Rope, Revive, Max Revive
Mt. Coronet Peak	Max Potion, Tiny Mushroom (x3), PP Up, Rare Candy,
Spear Pillar	Adamant Orb

Before heading into Mt. Coronet, Rock Climb on the wall next to the entrance for a trainer battle. His Pokemon consist of Golbat, Graveler and Onix -- all at level 35. You'll receive \$1120 for winning. Also, smash the rock next to the trainer then press A to find an IRON.

Mt. Coronet

Rock on the wall at the northeast corner to the next floor. Here, go northwest up the steps to find a MAX POTION. Turn back, then head south for an ESCAPE ROPE. Go back, proceed up the steps. At the fork, continue north then west across the bridge. Go down the stairs and up the next one to get a REVIVE. From there, turn right up the stairs. Cross the bridge and head down 2 sets of stairs. Now go left under the bridge into the next area.

Follow the path up to the next screen. In this area, take the right steps down. Check the solitary stone at the bottom to find a MAX REVIVE. Return to the previous area and head north.

Trainer	Pokemon	Rewards
Galactic Grunt	Beautifly (Lv. 40)	\$1600
Galactic Grunt	Bronzor (Lv. 39)	\$1560

Defeat both Galactic Grunts. Follow the path to the exit.

Mt. Coronet Peak

This part of the mountain is covered with snow. So all battles that occur outside the caves will have hail weather. Anyway, start off by going right then up. Rock Climb on the wall there. At the top, head left, down, then left again. Examine the stone for a MAX POTION. Make your way back to the rocky wall and proceed right into the cave.

Go up the steps then examine the stone to get an ULTRA BALL. Head back down, continue west, smash the rock and check the back wall for a TINY MUSHROOM. Examine one of the 2 stones near the cave entrance for a PP UP. Go back outside. Make your way to the cave at the northwest portion of the mountain and go in.

Rock Climb to the top. Battle 2 Galactic Grunts.

Move on to the east exit. Outside, examine the stone on the tall grass for a RARE CANDY. Rock Climb on the wall to the left. At the top, head west and examine the stone to get a TINY MUSHROOM. There's a rock with a BIG MUSHROOM on the right-most corner at the bottom of several stairs. Turn back and go into another cave.

Check the second rock for a TINY MUSHROOM. Follow the path up several stairs and battle another Galactic Grunt.

After that cut-scene with the Galactic Boss Cyrus, heal up your Pokemon and save your game. Battle Commander Jupiter and Commander Mars. Damion will be helping you in this fight.

Boss	Pokemon	Rewards
Commander Jupiter Commander Mars	Bronzor (Lv. 41)	--

	Golbat (Lv. 41)	--
	Skuntank (Lv. 46)	--
	Purugly (Lv. 45)	\$7280

Damion will send his Munchlax out first. The thing is, his Munchlax is useless. It does prove useful as a cannon fodder though. But do try to knock it out, so you can force Damion to send out some better Pokemon.

The foes' Bronzors are weak against Fire, so try to hit them with that attack type as much as possible. The Golbats are weak to Electric attacks, so moves like Thunder are very effective against them. As for Purugly and Skuntank, hit them with your strongest Fighting-type moves.

After the battle, Damion will heal all your Pokemon and leave. Save your game. Battle Cyrus again.

Boss	Pokemon	Rewards
Galactic Boss Cyrus	Honchkrow (Lv. 45)	--
	Gyarados (Lv. 45)	--
	Weavile (Lv. 48)	--
	Crobat (Lv. 46)	\$8640

Cyrus' Pokemon are weak to Electric-type attacks. Pikachu's Thunder (provided that your Pikachu has high Sp. Atk. stat) is capable of knocking each of them out in a single hit.

Heal up your Pokemon and save your game again. Go forward and battle Dialga (Pokemon Diamond) or Palkia (Pokemon Pearl).

Legendary Pokemon Dialga
Dialga's Roar of Time deals serious damage on your Pokemon, and it is also halves the damage it receives from most attack types. It is weak against Ground and Fighting-type moves though. Earthquake does considerable damage to Dialga, but do not overdo it since you're supposed to capture this Pokemon, not defeat it. Once you get its HP down to red, start throwing Ultra Balls or Dusk Balls (at night). It may take several

attempts to successfully capture it.

Again, you only get to fight and capture Palkia in Pokemon Pearl.

| Legendary Pokemon Palkia |

| The movesets of both legendary Pokemon are the same save for |
| the fact that Palkia has Special Rend instead of Roar of Time. |
| I suggest using a fighting-type Pokemon in this battle. If you |
| have a Machoke with the Revenge attack, then use it on Palkia |
| until you get it down to red health. Once this happens, start |
throwing Ultra Balls until you capture Palkia.

Before exiting Mt. Coronet, go back to Dialga's or Palkia's spot at the Spear Pillar and pick up the ADAMANT ORB (Diamond) or the LUSTROUS ORB (Pearl).

The Beacon Badge - Azelf, Uxie, Mesprit

You can now try to capture the legendary Pokemon in Lakes Valor, Verity and Acuity.

Lake Valor

The lake will be back to normal now. So surf southeast across the lake to find TM25 THUNDER. Proceed into the cave at the center of the lake. Save your game before fighting it.

```
-----
| Legendary Pokemon Azelf                                     |
|-----|
| Be cautious about using special attacks on Azelf. It has low |
| special defense so it is possible to accidentally beat it with |
| just one hit. When Azelf's HP is down to orange, bring in a   |
| weaker Pokemon and start chipping your target's HP down to    |
| red. Throw Ultra or Dusk Balls to capture it afterwards. Azelf |
| is difficult to catch, so be sure to have lots of Ultra or    |
| Dusk Balls in your inventory.                                |
|-----|
```

Lake Acuity

If you obtained the TM14 BLIZZARD earlier, then you can surf directly to the cave at the center of the lake. If not, then surf northeast to get it. Once again, save your game before fighting.

```
-----
| Legendary Pokemon Uxie                                     |
|-----|
| Bring in a Dragon-type Pokemon to bare the brunt of Uxie's    |
| attacks. Reduce your target's HP down to red, and start      |
| throwing Ultra and Dusk Balls. All Uxie does most of the time |
| is use Amnesia, which boosts its special defense. Again,     |
| capturing this Pokemon can take a while.                      |
|-----|
```

Lake Verity

Surf towards the cave at the center of the lake. "Talk" to Mesprit and it will run away. From this point on, the chase begins. You can pinpoint the Pokemon's location using the Marking Map Poketech application. The only way you can actually encounter it is to go back and forth between a town/city and a Route. And hope that Mesprit ends up in your location.

```
-----
| Legendary Pokemon Mesprit                                   |
|-----|
| This Pokemon is really difficult to capture. When you engage |
| it, Mesprit will run away on its very first turn. Make sure  |
| that your lead Pokemon's Speed stat is over 100. So that you  |
| get to move first as soon as the battle starts. Use the Master |
|-----|
```

Ball to capture Mesprit right away.	
Alternatively, you can also gradually damage Mesprit until it	
becomes weak enough to be caught without having to use the	
Master Ball. All damage and status ailments inflict on it will	
be carried over to your next encounter with Mesprit even if	
the Pokemon flees.

Start off by taking the upper stairs down and check the lower-right portion for a HONEY. Continue right battling some more trainers. After beating Thomas. speak to the blue-haired guy at the upper path. He'll give you the TM56 FLING. Once you spot the fence, go around the outside and cut the tree to get a CARBOS. Continue west at the split to the beach and battle with the fishermen there. Proceed to Sunyshore City afterwards.

Sunyshore City

You'll meet Flint, an Elite Four member the moment you enter. After he leaves, go up the stairs and head west all the way to the end. Go down. Grab the THUNDERSTONE. Rock Climb on the wall to the right. Go southeast along the solar panel path to reach the Vista Lighthouse. Go inside.

Talk to the blond guy, who turns out to be the gym leader. Leave and proceed to the Pokemon Gym. Take the solar panels to the northwest part of the city to get there. Go in.

The puzzle in this gym involves stepping on the switches to rotate the bridges, so that you can cross over to where you want to go. The first few rooms should be pretty easy. Getting to the Gym Leader in the last room is a bit tricky though.

Start off by stepping on the red switch once, then cross over to the left and step on the other red switch once as well. Now head north across the bridge to the left. Navigate all the way to the green switch and press it twice. Continue south and follow the path to the blue switch. Press it once. Next, go north then down the stairs. Proceed south across the right side bridge. Press the red switch once. Make your way to Volkner to battle him.

You'll receive the BEACON BADGE and the TM57 (Charge Beam) afterwards. The Beacon Badge allows you to use the Waterfall ability outside of battle. Go back out to the city and head over to the beach. There, speak to Jasmine to get the HM07 (Waterfall). Surf north off the beach to Route 223.

Head west through the rocks near the starting point (you'll have to look for an opening to get in). Keep going left then up to find a TM18 (Rain Dance). Head north across the bridge and Rock Climb down, From here, go left and defeat the Psychic Trainer. Proceed north afterwards to get TM41 TORMENT. Backtrack to the rocky wall and climb back up. Continue east across the bridge then down the steps to battle another Trainer. After beating Hana, go north for a FULL HEAL.

Go back and take the bridge going up. Rock climb down the wall, proceed west and up the steps at the end. Defeat Mariah and climb up to 2F. There, head down. Use Strength to push the boulders out of the way and head west. After beating Omar, examine the rock north of his position for a MAX ELIXIR.

Make your way back to the starting point of this floor and head west. Check the left wall once you reach the dead end for a FULL RESTORE. Run back to where Omar is. There, manage the rocks and boulders to open a path going down. Battle with Sydney. Continue right for a bit, then north. Battle Clayton. Follow the path back to 1F.

Go right and Rock Climb down the wall. Continue north then east. Defeat Miles and proceed onwards to B1F. Surf on the water and get off the narrow strip of land going right, to find another Trainer. Surf northeast after beating Valencia to find Henry. Defeat him as well and surf south. You'll find two more Trainers (Jo & Pat), beat them.

From here, surf south to dry land. Go west then up the steps back to 1F. Grab the RARE CANDY. Return to B1F. Go all the way back north until you reach the waterfall. Scale it to the top and continue west. Defeat Ondrej, then go down the waterfall to get the TM59 DARK PULSE. Climb back up the falls. Go west then down. Proceed up the steps to 1F.

After beating Edgar, go west then south for a RAZOR CLAW. Return to Edgar and head south this time. Rock Climb up the left wall. At the top, go left across the bridge, then north up the steps to 2F. Push the boulders to open a path leading to the TM79 DARK PULSE. Go back to Edgar again, and go up the steps next to him. Take the bridge right, then go around the corner to grab a ZINC.

Again, make your way back to Edgar... for the last time. Go south, Rock climb up the right wall. Defeat Clinton and continue north across the bridge to the exit.

Pokemon League

Surf across the water and scale the waterfall to reach the top. Go into the castle. You'll end up in a Pokemon Center. Talk to the lady behind the left counter to heal your Pokemon. The right counter sells items. Stock up on various healing items. When you're done, save your game and head for the central passage. Damion will come in and challenge you to another battle. You'll receive \$5300 for winning.

After he leaves, make sure you're really prepared before going into the entrance ahead. Because there's no turning back once you get inside! You'll be battling against all 4 members of the Elite Four, and the Pokemon League Champion here. Proceed to the first room, save and speak to Aaron to start the battle.

Elite Four Aaron	Dustox (Lv. 53)	--

	Vespiqueen (Lv. 54)	--
	Beautifly (Lv. 54)	--
	Drapion (Lv. 57)	\$6840
Most of Aaron's Pokemon, except Drapion are bug-type. And those Pokemon have one common weakness: Fire. Bring in a Pokemon with high Special Attack stat and have it use fire-type attacks. That should be able to knock your target out with just one hit. Use Ground-type moves against Drapion. Earthquake should get the job done.		

Boss	Pokemon	Rewards
Elite Four Bertha	Quagsire (Lv. 55)	--
	Whiscash (Lv. 55)	--
	Sudowoodo (Lv. 56)	--
	Hippowdown (Lv. 59)	--
	Golem (Lv. 56)	\$7080
All of Bertha's Pokemon are weak to Grass-type attacks. So moves like Giga Drain and Leaf Storm are extremely effective in this battle.		

Boss	Pokemon	Rewards
Elite Four Flint	Rapidash (Lv. 58)	--
	Infernape (Lv. 61)	--
	Lopunny (Lv. 57)	--
	Steelix (Lv. 57)	--
	Drifblim (Lv. 58)	\$7320

This is where the battle gets tough. Flint's Rapidash is strong, but Infernape is the one that you should really worry about. Avoid using Grass or Ice-type Pokemon as much as possible while battling those 2. Rapidash, Infernape and Steelix are weak against water. So if you have any powerful water spells at your disposal, then by all means use them. Rock-type attacks also deal decent damage to Flint's Fire Pokemons.

Use Fighting-type moves on the Lopunny, Water attacks on the Steelix and Electric, Rock, Ice, Dark or Ghost spells on the Drifblim.

Boss	Pokemon	Rewards
Elite Four Lucian	Mr. Mime (Lv. 59)	--

	Alakazam (Lv. 60)	--
	Bronzong (Lv. 63)	--
	Girafarig (Lv. 59)	\$7560

Dark-type moves work very well on Mr. Mime and Alakazam. The Medicham will be your primary concern here. It throws punches that cover plenty of weaknesses. Your best bet is to use Flying and/or Ghost moves on it and hope that you knock it out in one hit, so that Lucian won't get a chance to use Full Restore on it. Bronzong is weak to Fire and Girafarig is weak to Dark.

Boss	Pokemon	Rewards
League Champion Cynthia	Spiritbomb (Lv. 61)	--
	Gastrodon (Lv. 60)	--
	Garchomp (Lv. 66)	--
	Lucario (Lv. 63)	--
	Milotic (Lv. 63)	--
	Roserade (Lv. 60)	\$13200

This is it, the final boss! And surprisingly, she's a lot easier to beat compared to Lucian. Her Spiritbomb has no weakness, so just chip away at its HP with any move, except Normal or Fighting ones. Chances are, Cynthia will call it back once its low on health. The Gastrodon is extremely weak against Grass moves. So a single hit with a powerful grass spell will take care of it.

| The Garchomp is weak against Dragon attacks. One hit from Dialga's |
| Roar of Time is all it takes to knock this one out. Use Fire or |
| Ground-type attacks on Lucario. |
| |
| Electric spells is your best choice against Milotic. As for |
| Roserade, use fire spells. You can beat all of Cynthia's Pokemon |
| with one hit, provided that the move you are using is the target's |
weakness; and that the user has a high special attack stat.

National Pokedex

You need to have seen all 150 Pokemons in the Sinnoh region to get this. You should have a total of 149 entries in your Pokedex when you complete the game, provided that you battled all the trainers in the game. The missing entry would either be for Dialga or Palkia (depending on which version of Pokemon you have).

Celestic Town

Proceed to the into the large house at the north side of town. Speak to Cynthia's granny and she'll show you a picture of either Dialga or Palkia (depending on whether you are playing Diamond or Pearl). Now that you have completed the Sinnoh Pokedex, it's to get it upgraded.

Sandgem Town

Proceed to Professor Rowan's Research Lab and show him your completed Pokedex. Rowan will reward you with the POKE RADAR application for your Poketech. Professor Oak will come in and upgrade your Sinnoh Dex to the National Dex.

Keep reading the following chapters for details on how to complete the National Dex.

Pokemon Mansion Trophy Garden

Once you have the National Pokedex, you can come here and talk to Mr.Backlot. Reply with "Yes" to both questions and he'll speak of the appearance of a new Pokemon in his garden. There will be one new Pokemon for you to catch in the garden each day. Below is a list of Pokemons that can be caught in the Trophy Garden.

Azurill	Happiny	Bonsly	
Chansey	Igglybuff	Castform	
Clefairy	Jigglypuff	Minun	
Cleffa	Marill	Plusle	
Eevee	Meowth	Porygon	

Pastoria Great Marsh

Just like in the mansion, you can catch some rare new Pokemon each day, byplaying the Safari game. Use the binoculars in the second floor of the observatory to find out which Pokemon are available. Note that this quest becomes available after obtaining the National Pokedex.

Croagunk	Gyarados
Drapion	Whiscash

Old Chateau

After obtaining the National Pokedex, come back to this house anytime between 22:00 to 04:00. Head to the center room in the 2nd floor. There, enter the 2nd room (from left). Save your game. Check the TV and thump it when prompted to. Rotom will come out to fight you.

Legendary Pokemon Rotom

| This Pokemon is very low level. So it is very easy to knock it |
| out accidentally. Bring in your weakest Pokemon (a low level |
| one) and chip away Rotom's HP. Once it drops to red, throw an |
| Ultra Ball to capture it. Chances are it won't be able to |
break free, since it is a low level Pokemon.

Snowpoint Temple

Pokemon [Inside Temple]		Items or Key Items

Graveler	Lv. 52-56		
Onix	Lv. 52-53		
Sneasel	Lv. 50-56		
Steelix	Lv. 52-56		

Head to the temple at the northmost portion of Snowpoint City after getting the National Pokedex. Candice will then permit you to enter the temple. Just navigate your way to the different floors, picking up a CALCIUM and NEVERMELTICE along the way. Once you get to the room with a Pokemon statue in it, navigate the icy floor to the center of the room. Examine the Pokemon "statue" to battle Regigigas.

Note that in order to fight Regigigas, you need to have Regirock, Regice, and Registeel in your party. To get the 3 Pokemons, you can either transfer them from your Pokemon Sapphire, Emerald or Ruby GBA games, to Diamond or Pearl through Pal Park and capture them there.

Legendary Pokemon Regigigas
Regigigas is a normal-type Pokemon, so take advantage of its weakness against fighting-type moves. Most of its attacks are of normal-type as well, and are pretty strong too. Superpower is a fighting-type move though. This Pokemon's attacks are powerful, but fortunately it also has the Slow Start ability which tips the scales to your favor for the first 5 turns of the battle
Make use of the 5 turns to lower your opponent's attack and speed stats. Moves like Charm and Scary Face work well for such purpose. Once the 5-turn duration ends Regigigas will get a great boost in speed and power, so hopefully you've managed to lower its stats enough beforehand.

Fullmoon Island

After obtaining the National Pokedex, go to Canalave City and proceed to Sailor Eldritch's house (it is located next to the ship that sails to Iron Island). Talk to the mother and child in there. Leave the house, speak to Sailor Eldritch and sail to Fullmoon Island.

Once you get there, head for the top-left entrance to find another legendary Pokemon, Cresselia. Talk to it and it will fly away. Pick up the LUNAR WING. Take it back to Sailor Eldritch's son in Canalave City.

As for Cresselia, you'll have to go after it, just like what you did with Mesprit. I suggest going back and forth between a route and a town, until the Pokemon ends up at your location. (Track its movement with the Marking Map.) Cresselia stays in the water all the time, so you'll have to surf in order to encounter it.

Legendary Pokemon Cresselia

| Like Mesprit, Cresselia will flee on its first turn, so you'll |
| have to capture it quick. If you still have the Master Ball, |
| you may use it here if you like. Otherwise, start the battle |
| with a "hasty-natured" Pokemon (like Machoke) and immediately |
throw a Quick Ball to catch your target.

Turnback Cave

This area is accessible via the Spring Path (east of Route 214). At the Sendoff Spring, climb up the northeast wall and go around to the top to reach the cave entrance. The Pokemon in the cave consist of Bronzors, Bronzongs, Golbats and Haunters. The encounter rate for Haunters is pretty high, so this cave is a good place to catch one.

Use Defog as soon as you enter to restore visibility. The rooms in this dungeon seems to be randomly generated. So I can't tell you exactly where you need to go. But your guide here will be the "pillar rooms". (A room with a single pillar in it.) There are 3 of such rooms in this dungeon. and you need to access all of them to get to the legendary Pokemon.

When you get to the room in which the pillar states "3 12", then chances are, one of the exits in that room will lead to Giratina. Once you spot the Pokemon, save your game and talk to it.

```
-----
| Legendary Pokemon Giratina                                     |
|-----|
| I really suggest that you send out Dialga here. Since it can |
| handle all the attacks Giratina throws your way. The only move |
| you need to watch out for when using Dialga is Earth Power,    |
| because Dialga is weak against Ground attacks. Giratana is    |
| weak against Dragon-type moves, so Dialga's "Roar of Time"    |
| will work very well.                                           |
|-----|
| The said move will often leave your target with a tiny chunk  |
| of HP. Once that happens, start throwing Dusk or Ultra Balls  |
| at Giratina. This legendary Pokemon is really difficult to    |
| catch, so it will take a lot of attempts on your part.       |
|-----|
| I'm not really sure about this, but it seems that a Pokemon  |
| with a "Hasty" nature (like Machoke) makes capturing Giratina |
| a lot easier.                                                  |
|-----|
```

Buck will be joining you here, and will fully heal your Pokemon after each battle. His Claydol is pretty useful too. Also, note that you cannot use Rock Climb, or your bike while Buck is with you. Now, this part of the mountain is large and somewhat confusing, though I'll do what I can to explain it. Your destination is to the north of the entrance to this area. But you'll have to weave around the western portion of this place to get here.

Start off by making your way to the northwest corner, via the lower level to reach the TM50 OVERHEAT. You can pick up a CALCIUM in a trench at the center of the area. After getting that item, return to Krystal and Ray's position. From there, continue further north down the next ladder. Follow the path all the way down to a rock, and examine it to get a REVIVE.

Go past Chelsey and Sterling at the southeast-most portion of the area, to find an IRON BALL in a trench there. Now, navigate to the northeast section of this place and head right. Defeat both Trainers. Check the rocks to the left of the old man to get an IRON. Proceed up the ladder and head left for a MAX REVIVE.

Return to the northeast section, go down a little bit then left. Climb up the ladder. Continue northwest down the next ladder. Just follow the path heading west, battling 2 pairs of Trainers along the way. When you see a ladder heading down, take it and go right along the trench. Push the boulder out of the way and head up the ladder into the next area.

After Buck leaves, use an Escape Rope to get off the mountain. Go back to the Survival Area. There, go into the house to the left of the Pokemon Center. Talk to Buck. Buy plenty of Ultra Balls at the Poke Mart too. Make your way back to the Stark Mountain afterwards.

You should be able to get the remaining treasures in Area 2, now that you can use Rock Climb. The items include a MAX ELIXIR and a NUGGET. Head for the cave where Buck got the stone. You should find Heatran waiting there. Save your game first then talk to it

Legendary Pokemon Heatran

| Heatran is a fire-type Pokemon, so avoid using Grass and Ice |
| Pokemon in this battle. It is weak against Ground and Water |
| attacks though. Heatran knows Lava Plume, which can leave |
| Burns if it hits. Bring in a Pokemon that has high Defense and |
| Special Defense (like Dialga) and hope that your target only |
| uses Scary Face and Iron Tail on you. Start throwing Ultra or |
Dusk Balls when Heatran has very little HP left.

Pokemon Type Strengths and Weaknesses

A Pokemon can be strong, vulnerable or weak against certain types of attacks. Header explanations are as follows: Strong = Damage x 0.5; Weak = Damage x 2; Immune = Damage x 0. Attack types that are not listed deal normal amount of damage to that particular Pokemon.

Below is a table with all the different types of Pokemon and their strengths and weaknesses. We also have an [advanced search](#) facility in our Pokedex which will allow you to search for Pokemon based on many parameters, such as strengths and weaknesses. Also, in our [Pokedex](#) are strengths and weakness for every individual Pokemon, just go to the page for the Pokemon you are interested in for full details... For example, [Bulbasaur](#).

Honey Tree Pokemons

Honey Trees are the ones with yellowish leaves. You can slather its branches with honey to attract rare Pokemon to the tree. Here's a list of Pokemon you may catch using this method: AIPOM, BURMY, CHERUBI, COMBEE, HERACROSS, MUNCHLAX.

Swarm Pokemons

Again, these Pokemon only appear once you've obtained the National Pokedex. Go to Sandgem Town and into Lucas' house. Talk to Lucas' little sister. She'll then tell you what Pokemon is currently swarming and where. You may capture one swarm Pokemon per day.

The only way you can delete an HM move is to go to Canalave City and talk to the person inside the house located above the Poke Mart. The "Usable After" entry in the list below indicates when the HM move can be used outside of battle.
